## **DPL-US now the exclusive US importer of Ferrous Sulfate from Dr. Paul Lohmann<sup>®</sup>, Germany**

As of Jul-1<sup>st</sup> 2016, DPL-US, with offices in Islandia, NY, is the exclusive importer and distributor for all Ferrous Sulfate product range in all North America for Dr. Paul Lohmann GmbH KG, Emmerthal, Germany. This includes all variants and specifications of Ferrous Sulfate dried as well as Ferrous Sulfate 7-Hydrate.

A previous agreement, originally signed 1990 with Mallinckrodt Specialty Chemicals Co., and in recent years executed by its successor organizations under the Avantor, JT Baker and Macron brands, had been terminated in due time by June 30, 2016.

Thierry Roulet, Head of Operations North America, says: "Ferrous Sulfate is a very important product line for us, the Dr. Paul Lohmann<sup>®</sup> Company, on a global scale. We are very excited to have it exclusively back under our own brand, and our representative DPL-US being able to engage directly with Ferrous Sulfate customers in the US also".

DPL-US will serve all bulk business in its standard 25-kg pack sizes directly out of its warehouses in New Jersey and California.

As for Ferrous Sulfate re-packed in standard containers of 500-gram, 2.5-kg and 12-kg, Ralf Dieckhoff, VP Sales & Administration at DPL-US, recommends that customer of those formats contact him short term in order to coordinate a smooth transition to a domestic, DPL-US approved re-packing and distribution partner. Additional information can be found on our website, [www.dpl-us.com](http://www.dpl-us.com).
